

Hygienica Environmental is now offering testing for SARS-CoV-2 (COVID-19) in the air and on surfaces. We can help you be confident in your daily cleaning and disinfecting procedures, return to work deep-clean swab testing following a confirmed case of Coronavirus, and air sampling of HVAC units.

We offer:

- ✓ Environmental surface swab testing of high-touch surfaces for the presence of SARS-CoV-2 (COVID-19)
- ✓ Environmental air testing for the presence of SARS-CoV-2 (COVID-19) within HVAC units
- ✓ Samples collected by experienced professionals in the field of environmental hygiene and air monitoring
- ✓ Surface sampling method approved by the WHO
- ✓ Analytical testing by an AIHA-accredited laboratory in Canada using qualitative Reverse Transcription PCR (RT-qPCR), which is a highly specific and sensitive method for testing of COVID-19
- ✓ Easy to read, peer-reviewed report, with results as "Detected" or "Not Detected"
